

Looking for a high-quality Camping Tarp? ABC TARPS will get you covered.

ABC TARPS have been providing Australian Campers with a range of Tarpaulins and Covers for over 25 years. Our range of Covers for Campers is as wide as the number of uses that they are used for – be it a slide to, Apex Shelter or a Ground Cover at ABC tarps we will have you covered.

ABC Tarps have the largest range of readymade Polyethylene covers in Australia. Our Covers are incredibly tough and robust, yet they are physically light enough to manage when putting into place.

Our covers are made with a range of features including Rope reinforced edges and Solid Brass Eyelets. If a cover is not available in the size or specifications you require, we can arrange for special Made To Order Covers to be supplied. Given that the Caravan Covers are exposed to the tough climatic conditions of Australia it is our recommendation to use our **DURA-TARP™ 5000** Extra Heavy Duty product range, although the **DURA-TARP™ 4000** is perfectly OK for Ground Covers.

Our covers are available in a range of sizes as noted below, additional information can be found on our website:
