ABC TARPS
Covering Australia.

BOATING COVERS
ABC TARPS

Looking for a high-quality Boat Cover?

ABC TARPS will get you covered.

For over 30 years, ABC TARPS has been protecting boats across Australia with high-quality, heavy duty tarpaulins. Whether your vessel is large or small, our extensive range of ready made polyethylene covers means we will have you covered.

Crafted from premium grade polyethylene, our boat covers are strong, durable and light enough to manage with ease. Each cover features rope reinforced edges and solid brass eyelets spaced approximately every metre for secure tie down and lasting performance.

If you cannot find the exact size or fit you need, we also offer made to order options tailored to your specifications. For boats exposed to harsh Australian conditions, we recommend our **DURA TARP 5000** Extra Heavy Duty covers for superior protection, UV stability and long-term peace of mind. We also offer the **DURA TARP 4000** range, a strong, water resistant and UV stabilised option that delivers reliable, cost-effective coverage without the added weight.

Available in a wide range of sizes, find the right fit and learn more at:
